

Places I Want to Visit

Bawan Arif

(No Order)

Castillo de Kukulcán, Chichén Itzá

La Piramide, also known as the Temple of Kukulcan located in the center of Chichen Itza. It's one of the tallest and more impressive Maya architectures it was built sometime in the 8th-12th century Ad (MayaPan Decade)

This place has always been on my bucket list. Because I've never been to Mexico so, if I ever go this would be one of the places I would go. This isn't even the only pyramid, there's a bunch of tourist attractions and it's only a 2-hour drive from Cancun.

Disney Land

Disney Land is one place I've always wanted to travel to ever since I was a kid even now that I'm older I'd still love to visit because they have stuff for everyone. All the rides they have, the food, and all the Disney characters walking around. Just being there and walking around would be an amazing experience on its own, but if I had to pick one ride to go on it would be Space Mountain.

Las Vegas, Nevada

If I was ever to go to Las Vegas I would have to be older to enjoy the full experience. Go to the casino and see all the shows they have there. I would really have to plan out this trip to go at times with shows I would like. Also, all the food, street performers, and some hotels have roller coasters.

Kaaba

The Kaaba located in Mecca is Islam's most important monument. The mosque it's in is considered the most sacred place to us. It can fit upwards of 1.2 million people in there.

We believe God sent Abraham (PBOH) and his Son to build the Kaaba as a house of worship.

The reason I want to visit is to get closer to religion and learn more about it. Also visit Saudi Arabia as it is a beautiful place

Thailand

Thailand is a great tourist destination because its super cheap and you can experience a bunch of diverse things. Unique cuisines, snorkeling, great hikes with amazing sights to see, and boat cruises. People can spend over a month in Thailand and never get bored because of all the activities to experience.

The End

Thanks for listening
