

FlipSnack Tutorial

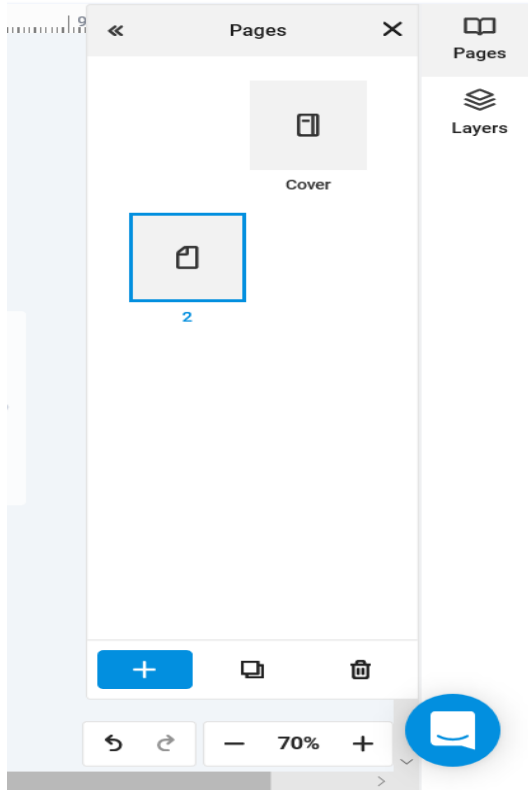

Step one: Login into your Flipsnack account and click onto “Create from Scratch”. Choose the size that you want and create.

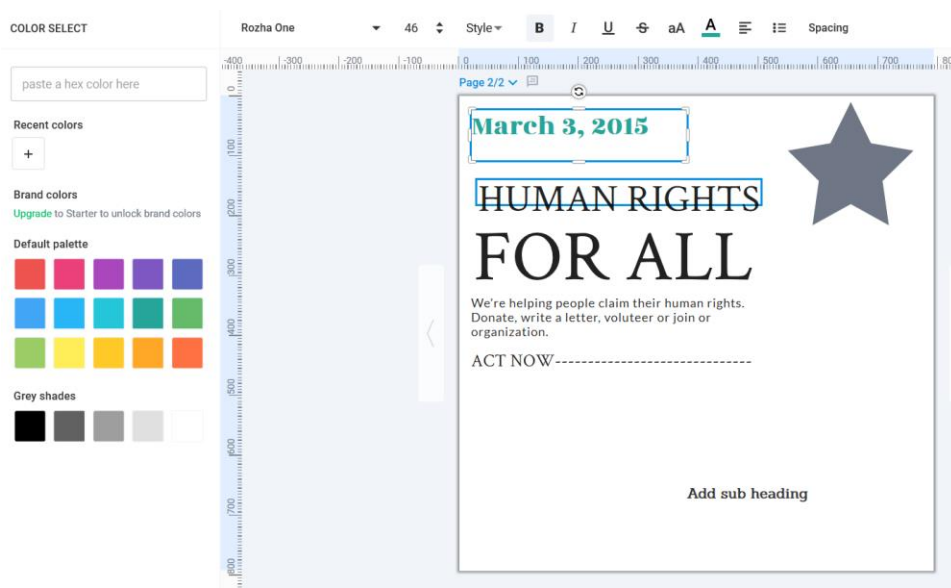

Step 2: You can begin with creating a cover page with a picture and a title by going to the photo and text column that is on the left-hand side.

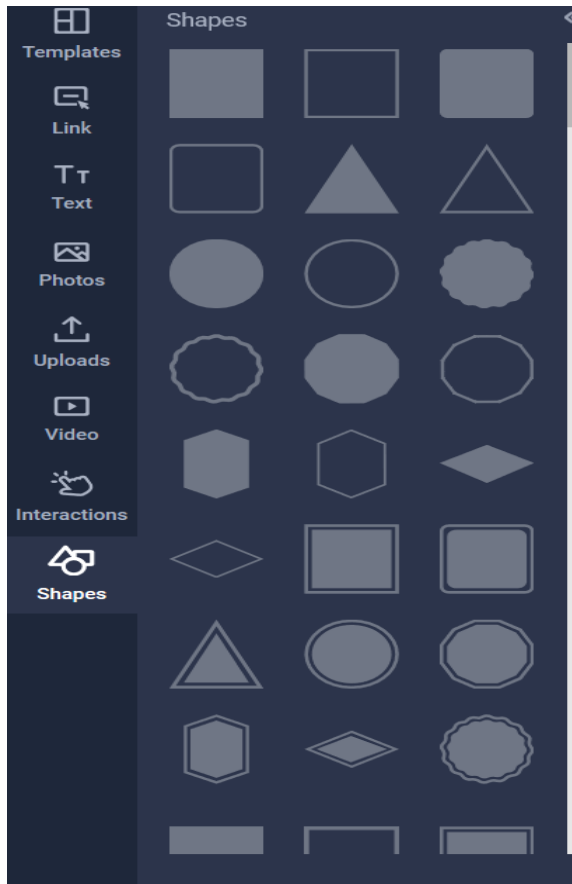

Step 3: To add another page, go to “Pages” that is on the top right corner and click the “+” icon on the bottom. To delete a page, click the page that you want to delete and click onto the garbage icon.

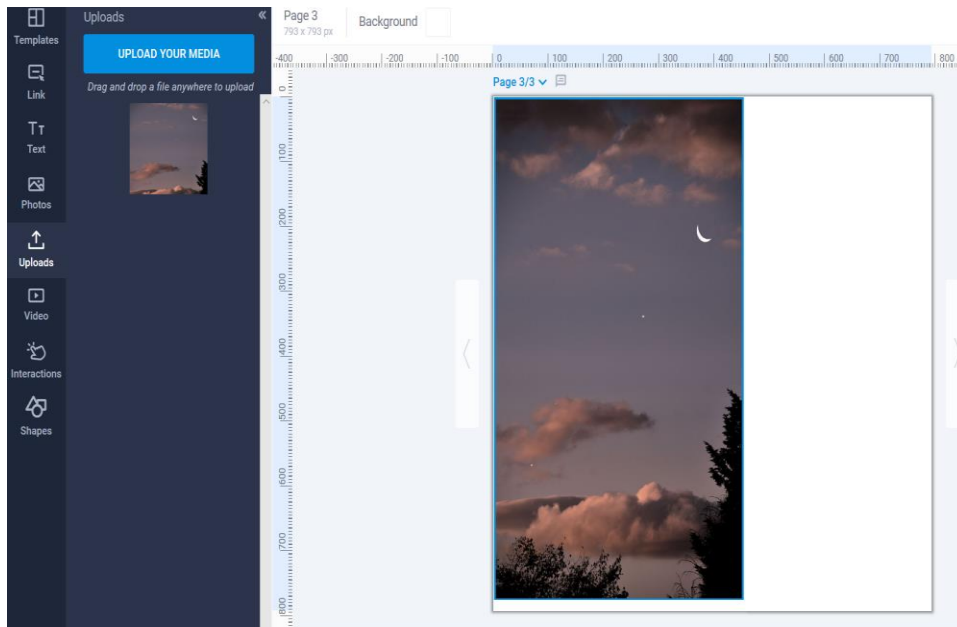

Step 4: You can add colors to the text by clicking onto the “A” icon on the top. In addition, you can also insert shapes (look at the photo below).

Step 5: The “Uploads” icon can let you upload your own photos. Here is an example of a photo that I saved from my phone.

Step 6: When you're done, click the "Make It A Flipbook" icon that's on the top right. After that, you will have the option to write a title a description for your flipbook. Finally, when it's finished, scroll down to click "publish".
