

# MB Milton bradley

what is Milton bradley

*Milton* bradley was a successfully men that made a board game in 1860 and by spring in 1861 he sold a copy of checkered game of life, about 45,000 thousand copy and you know how he it happen. when he visited he"s friends George Tapley and tapley challenged him to a old english game and bradley think of that game and he had idea of making a purple american game.and he made the C.G.O.L game which had players to move along a track from Infancy to happy old age. game but soon they disgrace cause used a spinner instead of dice because of negative association of gambling and the checkered game of life took the place of the happy old age game.

so milton bradley likes making board game and he become involve in the kindergarten movement deeply invested on that and the company was hurt by bradley"s generosity. he gave materials away for free and the investor told him that kindergarten work must go away or he"s company would and bradley chose to keep the kindergarten work and he friend George tapley bought the interest of the lost investor and took over as a president of the milton bradley company.

then Milton bradley went to hear the lecture about the kindergarten movement of education and he would spend the rest of he's promoting kindergarten movement and personality and he's best friends that own the milton company got involve in the kindergarten and productions gifts and the children create development bradley spend month of devising the materials and he chose colours which are six pigment of red,orange,yellow, green,blue and violet for the children throught the 20th century

and it become successfull and sold up grate
