Welcome to Class Notebook

Your OneNote Class Notebook is a digital notebook for the whole class to store text, images, handwritten notes, attachments, links, voice, video, and more.

Each OneNote Class Notebook is organized into three parts:

1. **Student Notebooks** — a private space shared between the teacher and each individual student. Teachers can access every student notebook while students can only see their own.
2. **Content Library** — a read-only space where teachers can share handouts with students.
3. **Collaboration Space** — a space where everyone in your class can share, organize, and collaborate.
